

DAT 640 Milestone Three Guidelines and Rubric

Develop the problem statement or research question that you will address in your final project. Specifically, address the following:

Predictive Algorithms

What **specifications** will you need to follow in selecting a predictive algorithm? Specifically, explain the selective structure, interaction, and relationship specifications of your organization.

Guidelines for Submission: Your paper must be submitted as a one- to three-page Microsoft Word document with double spacing, 12-point Times New Roman font, and one-inch margins. Any citations must be formatted according to APA style.

Critical Elements	Exemplary (100%)	Proficient (90%)	Needs Improvement (70%)	Not Evident (0%)	Value
Specifications	Meets “Proficient” criteria, and explanations are qualified with real-world examples for support	Accurately determines and explains the selective structure, interaction, and relationship specifications of the organization	Determines and explains the selective structure, interaction, and relationship specifications of the organization, but explanations or selections are not always accurate	Does not determine or explain the selective structure, interaction, and relationship specifications of the organization	90
Articulation of Response	Submission is free of errors related to citations, grammar, spelling, syntax, and organization and is presented in a professional and easy to read format	Submission has no major errors related to citations, grammar, spelling, syntax, or organization	Submission has major errors related to citations, grammar, spelling, syntax, or organization that negatively impact readability and articulation of main ideas	Submission has critical errors related to citations, grammar, spelling, syntax, or organization that prevent understanding of ideas	10
