

DAT 650 Milestone Two Guidelines and Rubric

Overview: You will submit a model framework. Report on the data selected, preparation of the data, test design, and the design of the model. Evaluate the role of existing analytic strategies in your model creation and summarize the business value of your model.

Prompt: Using the Use Cases document as a reference, design your descriptive and predictive pilot model. Consider the iterations needed to perform Data Understanding → Data Preparation → Model → Evaluation for descriptive and predictive iterations of the pilot model.

- Model Creation
- a. Evaluate existing data analytic strategies in terms of their use for data model creation. How useful would these strategies be within the chosen organizational environment?
 - What value does your analytic structure and strategy hold for model creation for your organization? Be sure to provide examples and support with resources when appropriate. ь.

Rubric

Guidelines for Submission: Your paper must be submitted as a 2-page Microsoft Word document with double spacing, 12-point Times New Roman font, and oneinch margins.
